Futures contracts also have a color code. If you are referring to a futures contract within the current year, for example, it is not given a color code. Futures contracts in following years are color-coded. The March contract for the following year, for example, is called "Red March", the year after that "Green March", and so on. The official color codes are as follows:

Year:	Current	2 nd	3 rd	4 th	5 th	6 th	7 th	8 th	9 th	10 th
Color:	White	Red	Green	Blue	Gold	Purple	Orange	Pink	Silver	Copper
